They had to learn which animals to hunt and which plants to eat. Paleolithic people hunted buffalo, bison, wild goats, reindeer, and other animals, depending on where they lived. Along coastal areas, they fished. These early people also gathered wild nuts, berries, fruits, wild grains, and green plants.

build cities. We travel from continent to continent in hours. We communicate across the globe in an instant. We alone can build bombs and invent medicines. Why can we do all these things that other creatures can't? What makes us so different from other species? Investigating how early humans evolved and lived helps us answer these questions.
