Among other related topics, we work on: addiction, aging, gender and health, the political economy of health, pain, reproductive health, and models of science and expertise in health care systems. Faculty and students working in this area are interested in how health is socially and culturally constructed and how it is contested, both within dominant biomedical and public health paradigms and ...

Critical Health Studies - Department of Sociology and ...

CMA starts with the idea that human health is a biosocial and political ecological product. Consequently, CMA is critical of the tendency to naturalize the process of health and illness in the health and social sciences. CMA dates to the 1980s, but has deeper roots in critical theory concerning the social determinants of health.

Critical medical anthropology - Wikipedia

Our definition of critical health education studies is necessarily wide and its boundaries are porous enough to include work from across a number of disciplines and fields. In a broad sense, the idea of critical health education studies asks us to study health in all its complexity, drawing from diverse disciplinary perspectives.
