Infrastructure As Code (iac) Cookbook Download

The basic idea of

Infrastructure as code (IAC) is that IT infrastructure is treated as software. IT infrastructure provisioning process is built, treated, and managed through code, rather than scripting or manual process. That means code is used to automate the process of setting up and configuring a virtual machine, container, and so on.

The Infrastructure as Code Cookbook is for DevOps engineers and developers working in cross-functional teams or operations. If you're looking for help switching to IAC to manage complex infrastructures, look no further.

Amazon.com: Infrastructure as Code (IAC) Cookbook eBook ...

Infrastructure as Code (IaC) uses a high-level descriptive coding language to automate the provisioning of IT infrastructure. This automation eliminates the need for developers to manually provision and manage servers, operating systems, database connections, storage,

and other infrastructure elements every time they want to develop, test, or deploy a software application.
