The Winter Horses

Winter is a grey filly bred in Ireland by the Laddies Poker Two Syndicate, a horse breeding company associated with the Coolmore Stud. The filly was sent into training with David Wachman at Goolds Cross, County Tipperary. Like many Coolmore horses, the official details of her ownership have changed from race to race but she is usually described as being owned by a partnership of Derrick Smith, Michael Tabor and Susan Magnier.

How to Care for Horses in Winter | Purina Animal Nutrition

The primary energy or calorie source for horses is hay or pasture (i.e. forage and fiber sources). During the winter, if pasture grass is limited, you need to supplement a whole lot more calories in the form of hay. Always start with hay When you're mapping out your horse's winter diet, hay must always come first.

Winter Hay 101: How Much to Feed Your Horse (And Why)

In the winter months many horses will need extra energy to help them maintain their body temperature without decreasing body weight or creating stress due to discomfort for multiple days (cold stress). On average, it has been estimated that the average horse will need about 25% higher energy intake during the coldest winter months.

Winter can be hard on horses and horse owners. Feeding can be a challenge and the snow and cold can make some horses lose condition. Stable

care can become more difficult and riding almost impossible depending on snow depth and temperature. Here are tips for making life easier for you and your horse during the frigid winter months.

14 Winter Care Tips for Horses and Ponies - The Spruce Pets

During cold months, the horse's digestion converts feedstuffs into energy that results in body heat. This process is critical to winter survival. As animals switch from moisture-rich grass to drier hay, water consumption is important not only for hydration but also to keep feed moving through the digestive tract.
